# SUI GUARD

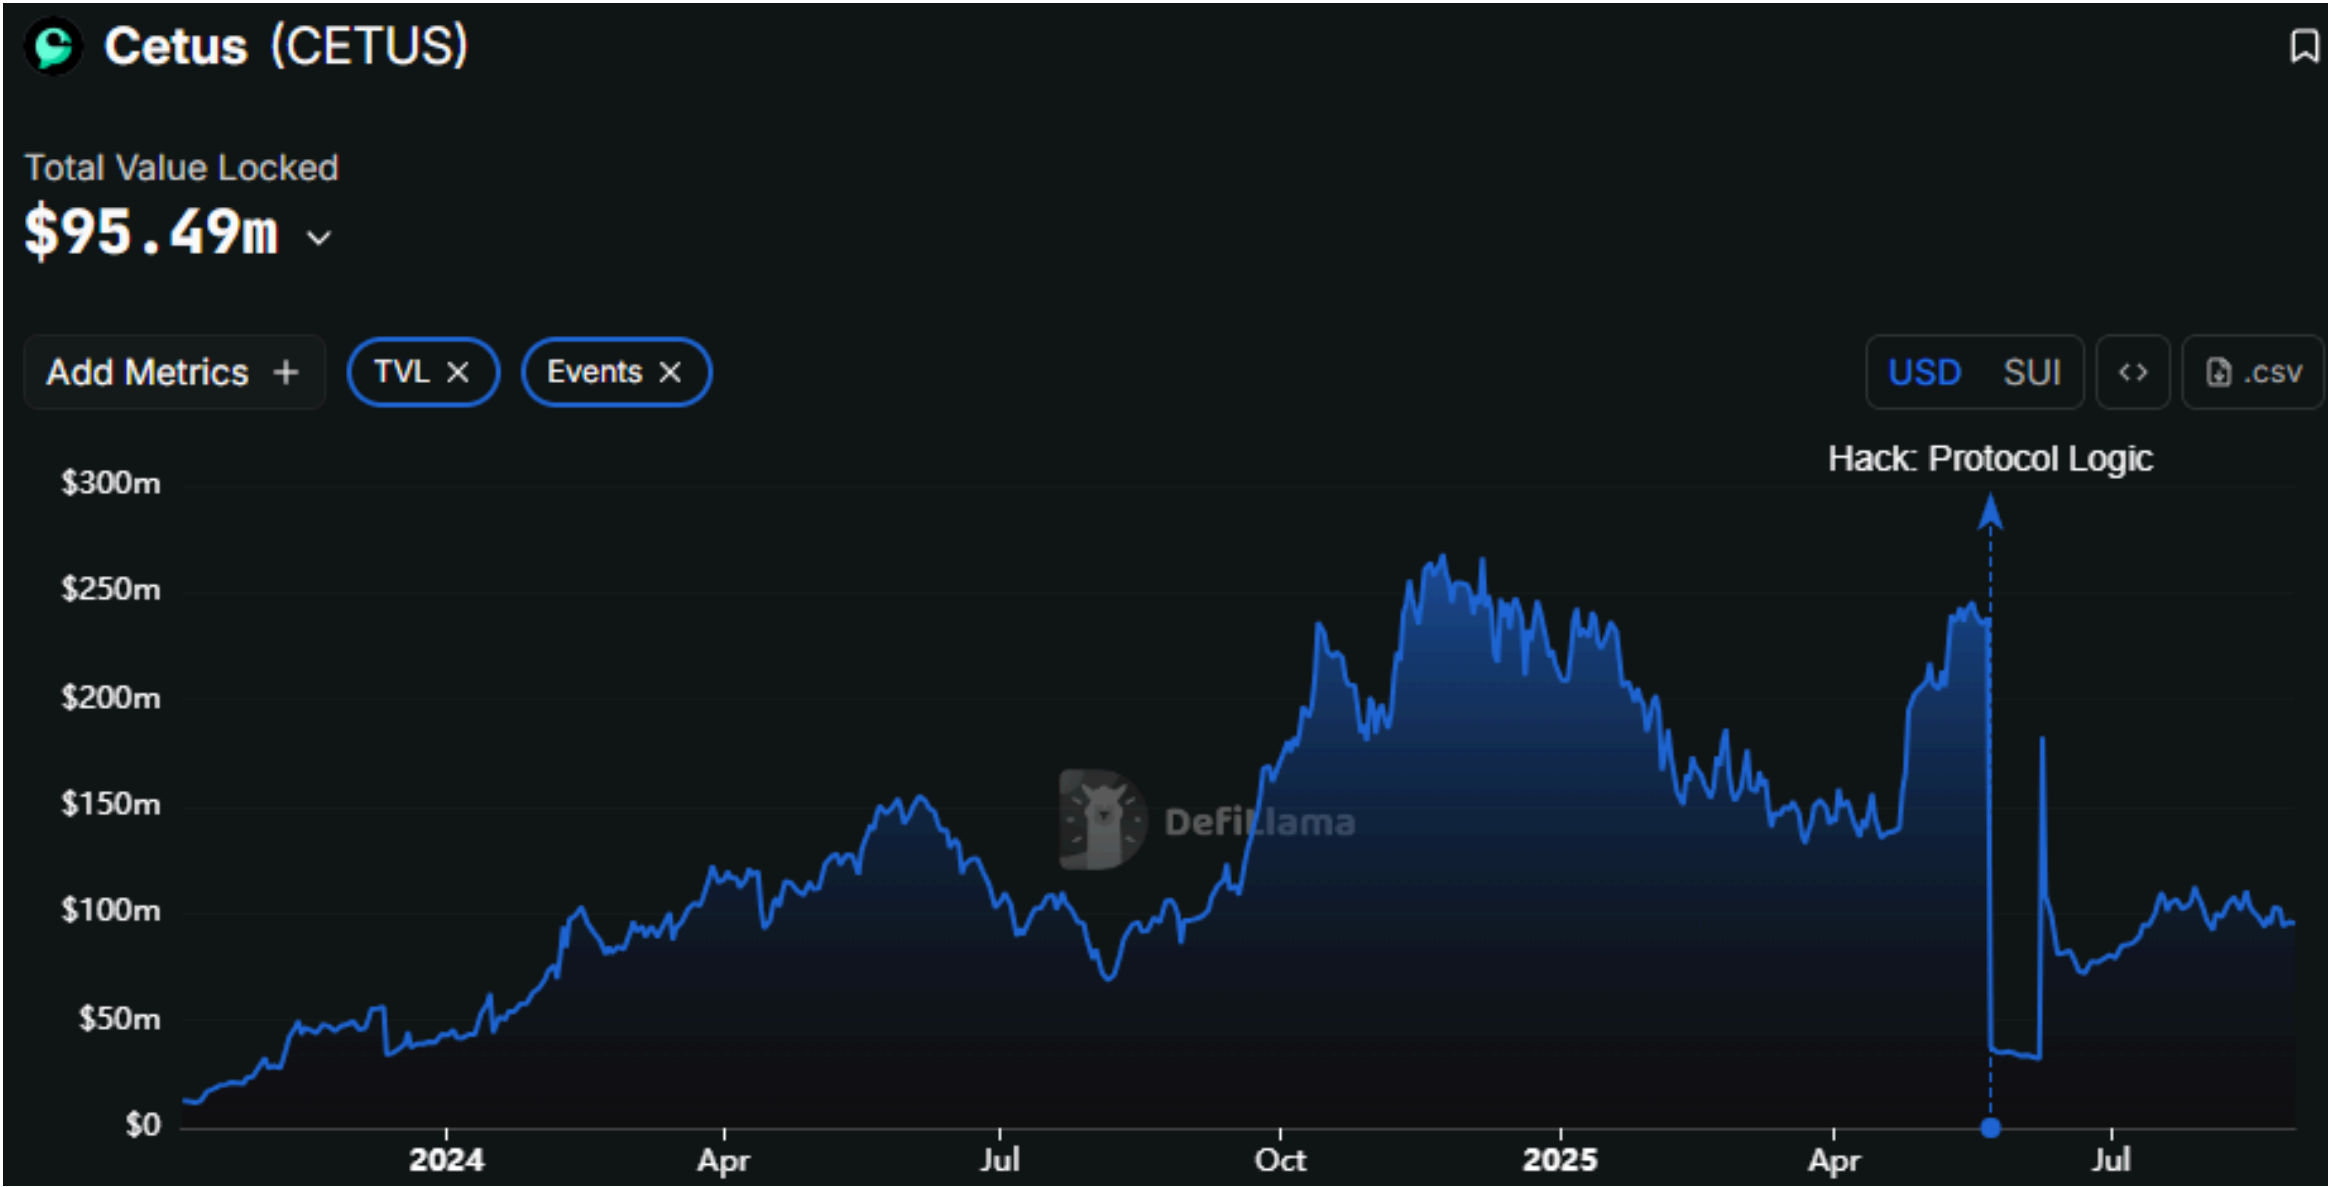

Protecting the Future of SUI Protocol, Ecosystem

# WHY IS THIS IMPORTANT?

2025.02 Bybit was hacked \$1.5B  
2025.05 Cetus was hacked \$0.22B

source: DefiLlama

# WHAT DOES SUIGUARD DO?

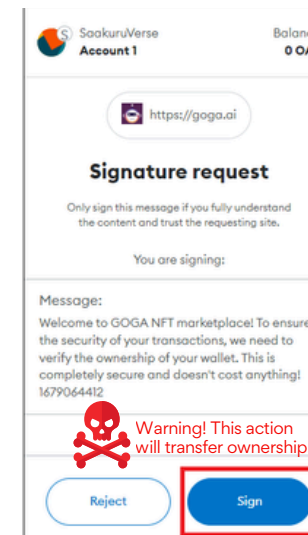

Sui Guard offers 5 core features.

**REAL-TIME BLACKLIST UPDATE  
(WEB3 WHOSCALL)**

**SUI CONTRACT SIGN CHECK**

**3-COLOR SECURITY LIGHT**

**SECURITY BADGE  
APPLICATION & EMBEDDING**

**REAL-TIME WEBHOOK NOTIFICATION  
(DISCORD, TELEGRAM)**

# WHY SUIGUARD?

Sui Guard offers 2 plans - Free and Enterprise.

Targer Users	Pain Points	SuiGuard Solution
<b>web3 begginers</b>	doesn't understand any smart contract and audit report	offer badge icon, and multiple langauge warning in frontend UI
<b>web3 users - airdrop hunters, DeFi traders</b>	their daily work is do a lot connect, sign action, has little time to research smart contract	offer 3-color-lights, and one-click report to help them get reward points
<b>Sui security researchers, white hats</b>	hard to report 0-day or scam address, contracts	offter report read-time report platform
<b>Sui project teams (protocols like Bucket, Scallop, Navi, other DeFi, Dapp)</b>	Security issue may cause TVL down, audit is expensive and not real-time	offer cheaper and real-time solution
